NOTE: The adult household members must submit a completed application and qualify for residency. Continued lack of proper maintenance or failure to maintain safe, clean and sanitary conditions will be grounds for termination of tenancy.

C. Automobiles shall be parked only in the parking areas designated by Management. The parking of motorcycles, boats, trailers, motor homes, recreational or commercial vehicles anywhere on the premises is prohibited, unless authorized by Management. Auto repair, except for the changing of flat tires and other minor adjustments, is not permitted on the premises. Vehicles will be kept in working condition while on premises. B. Tenant agrees that Tenant must immediately notify Management when there is a change in Tenant's status that could affect eligibility. This includes income, income from agriculture labor, adjustments to income, assets, changes in household size or composition, and citizenship/residency status. Tenant understands that Tenant rent or benefits may be affected as a result of this information. Tenant understands that failure to report such changes may result in Tenant losing benefits to which Tenant may be entitled and will result in Management taking corrective action if benefits were mistakenly received. Tenant understands that the corrective action the Management must take includes the initiation of demand for repayment of any benefits or rental subsidies improperly received. It may also include initiation to cancel any rental assistance being received for the balance of Tenant certification period, initiation of a notice to increase Tenant monthly rent to \$ _____ per month (Basic/Note Rate Rent), or initiation of a notice of termination.

D. Determination of eligibility (recertification) must be made by Management at least once a year from the date of the previous certification. Information required to be furnished by Tenant for such determination includes, but is not limited to: (1) income and asset verification and (2) names and ages of all household members. 3560.156(c)(11), 3560.156(c)(13), 3560.156(c)(18)(vi)

F. Tenant agrees that should Tenant no longer meet eligibility requirements of the project during the term of the lease agreement, Tenant will be required to vacate the unit within 30 days or at the end of the lease term, whichever is longer.

If Management finds that TENANT'S source of income has changed so that the TENANT is not eligible for continuing occupancy in USDA-RD housing, MANAGEMENT will then determine whether or not TENANT is disabled or a retired farm worker. 3560.156(c)(10)

1. A household which has otherwise become ineligible for continued occupancy by reason of the disability of the principal and/or second income recipient, may nevertheless remain eligible for continued occupancy provided that immediately before becoming disabled such income recipient(s) was/were primarily in agricultural work. G. Any misrepresentation by TENANT of the facts upon which eligibility for occupancy is based, or any failure to disclose facts affecting eligibility, or any failure to promptly report changes in family income, shall be grounds for termination of tenancy. TENANTS are aware that submission of false information may result in legal action by the USDA-RD. 3560(c)(4)

H. Optimum Occupancy Standards: Eligible tenants must qualify with the following number of authorized persons in the unit. 3560.155(e)

2 Bedroom - 2 to 5 people
3 Bedroom - 3 to 7 people
4 Bedroom - 6 to 9 people

I. Tenant agrees that should the unit become overcrowded or underutilized, during the term of the lease agreement, Tenant will be required to move to a unit of appropriate size within 30 days. If a tenant holds a Letter of Priority Entitlement (LOPE) issued according to 3560.655(d) and is temporarily housed in a unit for which they are not eligible, Tenant will be required to move to a unit of appropriate size when one becomes available. If a non-disabled family is occupying an accessible unit, the family is subject to move within 30 days of when a suitably sized unit becomes available when a disabled applicant or existing resident requests the accessible unit. 3560.156(c)(1) 3560.156(c)(7)

J. Knowing or willing misrepresentation by Tenant of the facts upon which rent or eligibility determinations are based, may subject Tenant to termination of tenancy and/or repayment of benefits to which not entitled and/or a fine of not more than \$10,000 or imprisonment of not more than 5 years, or both. 3560.156(c)(4)

K. Rent changes (other than due to changes in household income and/or composition) and/or notice of ineligibility shall become effective 30 days after service of written notice or no later than the 1st day of the month following expiration of such 30 day notice.

L. 9. **ABSENCE FROM OCCUPANCY:**

Tenant also understands that should an entitlement (Rental Assistance) be suspended or reassigned to other eligible tenant, Tenant is not assured that it will still be available upon Tenant's return. At the time of move out, Tenant will again have the opportunity to accompany the Management to inspect the Premises. d. State that Tenant will be expected to correct the lease violation by specified date.

e. State that Tenant may informally meet with Management to attempt to resolve the stated violation before the date of corrective action specified in the notice.

b. A three (3) day notice of termination regarding non-payment of rent shall be in the form and for the time served as provided by California law.

17. 1. Tenant agrees that any agreement entered into pursuant to Section 16.C.1b.3. shall be an amendment to the lease, and any attorney's fees and costs assessed pursuant to Section 16.C.1b.3 and unpaid at the time of any court action shall be construed to be additional rent.

26. 4. **ALQUILER:**

A. El Dueño ha entrado en ciertos Acuerdos con el U.S.D.A., Desarrollo Rural (USDA-RD) que disponen que USDA-RD proveerá asistencia para que hayan alquileres de menos que el Alquiler Base disponibles a los Arrendatarios calificados. El pago del Alquiler del Arrendatario se calculará basándose en el Ingreso Total Anual del Arrendatario. Los reglamentos de USDA-RD definen los detalles sobre los Ingresos (incluidos y exentos), Deducciones de los Ingresos y el Método de Calcular el Alquiler. Las Cantidades de Alquiler Base se determinan conforme con los reglamentos del USDA-RD, y no se cambiarán sin aprobación anterior. De acuerdo con los reglamentos vigentes del USDA-RD, la Contribución Neta Mensual del Arrendatario (NTC) puede cambiar, basándose en cambios en el Estatus de Elegibilidad del Arrendatario, el cual incluye cambios en sus ingresos y la composición de los miembros de la unidad familiar.

B. La Contribución Neta Total del Arrendatario será \$_____ por mes, según se determina por el documento adjunto marcado que aplica: ALQUILER, SERVICIOS PÚBLICOS y VÍVERES correspondientes a la clase de subsidio al alquiler y/o vivienda (marque el artículo que aplica). 3560.156(c)(18)(iii)

- USDA-Desarrollo Rural, Asistencia de Alquiler
 Alquiler Base/Alquiler a Precio del Mercado

C. El alquiler se vence y es pagadero el primer día de cada mes. El alquiler y demás cargos serán atrasados si no se pagan para el décimo día del mes. Aplicará un cargo por mora de \$10.00 si el alquiler no se paga para el décimo día del mes. Si se regresa un pago hecho por el Arrendatario por insuficiencia de fondos (NSF) o si el Arrendatario bloquea el pago, se cobrará una cuota adicional. La cantidad de la cuota es sujeta a cambio, y se fijará un aviso con el monto actual en la oficina de la Gerencia.

D. El Alquiler se paga en la oficina de la Gerencia, ubicada en 1455 Butte House Road, Yuba City, CA 95993 o en el lugar designado por la Gerencia en forma escrita entregada al Arrendatario en persona o por correo.

E. Si se firma el contrato de arriendo en un día que no sea el primero del mes, el ARRENDATARIO recibirá crédito por la parte del alquiler no ganada, el cual será aplicado al alquiler del mes en curso. A partir de entonces, el ARRENDATARIO será personalmente responsable por los pagos del alquiler por pagar.

F. En caso de la terminación del contrato de arriendo por el ARRENDATARIO como se manifiesta en la Sección 16 del presente contrato de arriendo, el alquiler pagado o adeudado será prorrateado para la fecha de vencimiento del período de aviso de treinta (30) días. Si el **ARRENDATARIO desocupa la propiedad sin previo aviso, se le cobrará treinta (30) días de renta** menos los días de ocupación al ser alquilada de nuevo. Los créditos o cobros del alquiler se basarán en un mes uniforme de treinta (30) días.

G. Si el ARRENDATARIO sea transferido de otra morada administrada por la GERENCIA, el pago de cualquier balance que queda del contrato de arriendo anterior será parte de la contraprestación del presente contrato de arriendo.

H. CLÁUSULA DE ESCALADA: El alquiler base aprobado por la USDA-RD para este complejo habitacional puede ser cambiado durante el término del contrato de arriendo, con la aprobación de la USDA-RD. Además, las contribuciones del arrendatario pueden ser cambiadas antes del vencimiento del contrato de arriendo si el cambio se debe a un cambio del estado de elegibilidad del arrendatario, manifestado en la información registrada en el formulario de certificación del arrendatario 3560-8, o por la falta del arrendatario de recertificar apropiadamente. 3560.156(c)(2)

5. SERVICIOS: Los Servicios y Servicios Públicos serán pagados por las partes según se indica abajo:

	Arrendatario	Dueño

Gas	X	
Agua		X
Drenaje Sanitario		X
Basura		X
Refrigerador		
Estufa		X

3560.156(c)(18)(iv)

El Arrendatario no desperdiciará los servicios suministrados por el Dueño, tampoco usará servicios o equipo para ningún propósito no autorizado. Basado en la Lista de Servicios Públicos arriba, una Desgravación por Servicios Públicos aprobada por la USDA-RD de \$_____ para una unidad de _____ recámaras será usada al determinar la contribución mensual del Arrendatario y el Pago de Asistencia de Alquiler. El Arrendatario tendrá que mantener los servicios públicos, como son de su responsabilidad, y pagar prontamente las cuentas de dichos servicios.
3560.156(c)(18)(v)

6. **DEPÓSITO DE GARANTÍA:** El Arrendatario se acuerda en pagar un depósito de garantía reembolsable de \$100 al Dueño al firmar el presente Acuerdo. Al terminar el Acuerdo, el depósito será reembolsado al Arrendatario dentro de 21 días, con la excepción de lo que el Dueño use para reembolsar los costos de reparar los daños que hayan, causados por el Arrendatario, los integrantes de su unidad familiar y sus invitados (con la excepción del desgaste normal), o alquiler o cualquier otro cargo que quede debiendo. El Dueño le dará al Arrendatario una lista enumerada que explica la retención del depósito de garantía que haya.

7. **USO Y CONSERVACIÓN DE LA PROPIEDAD:**

A. Sin el consentimiento por escrito de Dueño, el Arrendatario no reasignará el presente Acuerdo, tampoco dará alojamiento a compañeros de casa, inquilinos u otras personas no enumeradas en el Contrato de Arriendo y/o en el Formulario de Certificación de Arrendatario (Formulario 3560-8), tampoco permitirá el uso de la Propiedad para cualquier propósito que no sea el de una morada privada únicamente para el Arrendatario y su familia. Sin embargo, el Dueño reserva el derecho de pedir una declaración escrita de domicilio o comprobante de domicilio si se sospecha que un invitado es de hecho un ocupante no autorizado. Podría surgir tal sospecha cuando una o varias personas visitan repetidamente o visitan durante 14 o más días y/o noches continuas durante un período de 45 días sin permiso anterior por escrito de la Gerencia. Si el Arrendatario o persona en cuestión falta de proporcionar la información pedida para confirmar que tiene otro domicilio, o si los hechos forman evidencia suficiente de domicilio en el complejo de viviendas, la Gerencia puede considerar que dicha(s) persona(s) forma(n) parte de

los miembros del hogar, y podrá hacer cumplir cualquier párrafo infringido del contrato de arriendo y/o requerir recertificación.

Iniciales

3560.156(c)(8), 3560.156(c)(18)(xiv)

NOTA: Los miembros adultos de la residencia tienen que entregar una solicitud rellenada y reunir las calificaciones de residencia. La Gerencia reserva el derecho de rechazar los que piden agregarse a un hogar existente, basándose en los mismos criterios usados para todos los solicitantes, incluso el requisito de la USDA-RD que requiere que todos los Hogares de Labor Agrícola ganen \$5753 de ingresos agrícolas en el estado de California cuando aplican.

B. El Arrendatario mantendrá la Propiedad limpia e higiénica, y cumplirá con todas las leyes y requisitos de salud, seguridad y políticas con respecto a la conservación de la propiedad alquilada. Si hay daño a la propiedad causado por algún acto o negligencia por parte del Arrendatario o sus invitados (aparte de desgaste normal), el Arrendatario puede efectuar reparaciones, después de aviso razonable del Dueño, el Dueño puede causar que se hagan las reparaciones y el Arrendatario será responsable de pagar al Dueño los gastos razonables incurridos así. Una falta continua de mantener apropiadamente o mantener condiciones seguras, limpias e higiénicas será motivo para terminar su tenencia.

C. Los autos tienen que ser estacionados solamente en las áreas de aparcamiento designadas por la Gerencia. Se prohíbe el estacionamiento de motocicletas, barcos, remolques, casas rodantes, o vehículos recreativos o comerciales en cualquier parte de la propiedad, a menos que sea autorizado por la Gerencia. La reparación de autos, con la excepción de cambiar una llanta desinflada u otros arreglos menores, no se permite en la propiedad. Los vehículos tienen que estar en buenas condiciones de funcionamiento mientras estén en la propiedad. Cualquier vehículo descompuesto, no registrado o no autorizado será retirado de la propiedad de la Autoridad a gasto del Arrendatario. Los arrendatarios estacionarán sus vehículos solamente en las áreas de aparcamiento designadas, evitarán de parquear en los caminos de entrada comunes, céspedes, aparcamientos de la gerencia, sitios designados para las personas discapacitadas (a menos que apliquen) y de impedir acceso a vehículos de emergencia y de los otros arrendatarios. El Arrendatario pedirá a sus invitados a que usen aparcamientos designados para invitados o que estacionen sus vehículos en la calle. La gerencia hará cumplir las reglas de estacionamiento por medio de acción legal apropiada.

D. Al arrendatario se le advierte que el uso, posesión, manufactura, venta o distribución de alguna sustancia ilícita mientras vive en el complejo de viviendas es un acto ilegal y constituye una violación sustancial del contrato de arriendo, y no se tolera en la propiedad. El reconocer o sufrir una condena por tales actividades por el Arrendatario, los miembros de su unidad familiar, o los invitados del Arrendatario constituirá incumplimiento con el presente contrato y el Arrendatario sería sujeto a desahucio PERMANENTE. **Al Arrendatario se le avisa que llevar, poseer o consumir bebidas alcohólicas en el césped, áreas recreativas o estacionamientos del complejo de viviendas es ilegal y motivo para desahucio.**

8. **ELEGIBILIDAD CONTINUA:** Se estipulan las condiciones y/o normas siguientes para determinar el alquiler y elegibilidad continua para ocupación.

A. El Arrendatario entiende que si los ingresos de su unidad familiar exceden los ingresos ajustados máximos permitidos en el condado, según USDA-RD los defina periódicamente, ya no sería elegible para vivir en este complejo habitacional, y se le requerirá desocupar su unidad.

B. El Arrendatario se acuerda que tendrá que notificar a la Gerencia inmediatamente cuando hay algún cambio en su estatus que podría afectar su elegibilidad. Esto incluye sus ingresos, ingresos de labor agrícola, ajustes a sus ingresos, bienes, cambios de los miembros o número de personas en su unidad familiar, y su estado de ciudadanía o estado de residencia. El Arrendatario entiende que su alquiler o beneficios pueden ser afectados como resultado de esa información. El Arrendatario entiende que faltar de reportar tales cambios puede resultar en la pérdida de beneficios que hubiera tenido el derecho de recibir, y resultará en acción correctiva por parte de la Gerencia si el Arrendatario recibió beneficios equivocadamente. El Arrendatario entiende que la acción correctiva que la Gerencia tiene que tomar incluye el inicio de exigencia de repago de los beneficios o subsidios de alquiler recibidos erróneamente. También puede incluir la iniciación de cancelación de asistencia de alquiler durante el resto del período de certificación del Arrendatario, expedición de un aviso de aumentar el alquiler mensual cobrado al Arrendatario de \$ _____ por mes (Alquiler Base/Alquiler de Precios de Mercado), o iniciación de un aviso de terminación.

Iniciales _____

3560.168 (c)(4), 3560.156 (c)(12)

C. El Arrendatario entiende y se acuerda que la certificación de ingresos es un requisito de ocupación, y el Arrendatario se acuerda en proveer prontamente las certificaciones y verificaciones de ingresos requeridas por el Dueño para permitir la determinación de su elegibilidad y, cuando aplique, la determinación de la Contribución Mensual del Arrendatario que se cobrará. Al Arrendatario se le notifica que el Sitio de Viviendas de Richland del USDA-RD es financiado por el USDA-RD, y que el USDA-RD tiene el derecho de verificar la información suministrada por el Arrendatario. 3560.156(c)(2) 3560.156(c)(5) 3560.156(c)(13)

D. La Gerencia tiene que hacer una determinación de elegibilidad (recertificación) al menos una vez al año, desde la fecha de la certificación anterior. Además, una recertificación puede ser necesaria debido a cambios en el estado del Arrendatario, conforme con lo manifestado en la sección 8-B arriba. La información que el Arrendatario tendrá el requisito de suministrar incluye, pero no es limitada a: (1) verificación de ingresos y bienes y (2) los nombres y edades de todos los miembros de su unidad familiar. 3560.156(c)(11), 3560.156(c)(13), 3560.156(c)(18)(vi)

E. En cualquier momento el Arrendatario puede pedir que se vuelva a calcular su alquiler, debido a algún cambio en el número de personas y/o los ingresos de su unidad familiar.

F. El Arrendatario se acuerda que si ya no reúne los requisitos de elegibilidad del conjunto de viviendas durante el término del contrato de arriendo, tendrá que desocupar la unidad dentro de 30 días o al concluir el término del contrato de arriendo, según el que ocurra más tarde. Si la GERENCIA encuentra que la fuente de ingresos del ARRENDATARIO ha cambiado de tal manera que ya no es elegible para seguir viviendo en una vivienda del USDA-RD, la GERENCIA determinará si el ARRENDATARIO sea un trabajador agrícola incapacitado o jubilado. 3560.156(c)(10)

1. Una familia que por lo demás sería ineligible para ocupación continua, por razón de la incapacitación de la persona principal y/o segunda que recibe los ingresos, podría ser elegible con tal que la persona que recibía los ingresos trabajaba principalmente en la agricultura inmediatamente antes de incapacitarse. El USDA-RD define “inmediatamente” como los cinco años antes de la incapacitación o seis de los últimos diez años antes de la incapacitación. El término “incapacitación”, como se usa en este contrato de arriendo, significa incapacidad total y permanente, según su definición el la Ley de Seguro Social, con sus eventuales modificaciones.

2. Una unidad familiar que se hace ineligible para ocupación continua por razón de la jubilación del recibidor principal de ingresos y/o del recibidor secundario de ingresos puede seguir elegible para ocupación continua con tal que, inmediatamente antes de jubilarse, el (los) recibidor(es) de ingresos se dedicaba(n) principalmente al labor agrícola. El USDA-RD define “inmediatamente” como los últimos cinco años antes de jubilarse o seis de los últimos diez años antes de su jubilación. Para los fines del presente contrato de arriendo, la persona no se considera “jubilada” a menos que tenga al menos sesenta y dos (62) años de edad, y no recibe ingresos de fuentes no agrícolas que exceden los ingresos que recibe del Seguro Social y/o planes particulares de pensiones de jubilación.

G. Cualquier declaración falsa por parte del ARRENDATARIO sobre los hechos en los cuales se basa su elegibilidad de ocupación, o cualquier falta de revelar hechos que afectan su elegibilidad, o cualquier falta de reportar prontamente cambios en los ingresos de la familia, constituirá motivo para terminación de tenencia. Los ARRENDATARIOS están concientes que proporcionar información falsa puede resultar en acciones legales por parte del USDA-RD. 3560(c)(4)

H. Normas de Ocupación Óptima: Los arrendatarios tienen que calificar con el número siguiente de personas autorizadas en la unidad. 3560.155(e)

- 2 Recámaras - 2 a 5 personas
- 3 Recámaras - 3 a 7 personas
- 4 Recámaras - 6 a 9 personas

I. El arrendatario se acuerda que si la unidad se hace abarrotada o insuficientemente utilizada durante el término del contrato de arriendo, el Arrendatario tendrá que trasladarse a otra unidad de tamaño apropiado dentro de 30 días. Si un arrendatario posee una Carta de Derecho Prioritario (LOPE) otorgada conforme con 3560.655(d), y está alojado temporalmente en una unidad de tamaño incorrecto, el Arrendatario tendrá que trasladarse a una unidad de tamaño apropiado cuando la hay disponible. Si una familia sin miembro discapacitado ocupa una unidad con acceso facilitado, será sujeta a trasladarse dentro de 30 días cuando una unidad de tamaño adecuado se hace disponible cuando un solicitante o residente existente pide la unidad con acceso facilitado. 3560.156(c)(1) 3560.156(c)(7)

J. Un Arrendatario que a sabiendas o voluntariamente proporciona información falsa sobre los hechos en que se hacen las determinaciones de elegibilidad o alquiler puede ser sujeto a terminación de tenencia, y/o reembolso de los beneficios que no tenía derecho de recibir y/o una multa que no excede \$10,000, o prisión de no más que 5 años, o los dos. 3560.156(c)(4)

K. Cambios de alquiler (aparte de los por cambios de ingresos y/o composición de la unidad familiar) y/o aviso de inelegibilidad se harán vigentes 30 días después de la entrega del aviso escrito, o no más tarde que el primer día del mes que sigue el vencimiento de dicho aviso de 30 días.

L. El Arrendatario entiende que si él u otro miembro de su unidad familiar reciba beneficios de alquiler por los cuales no tiene derecho, debido a información incorrecta proporcionada por el Arrendatario o por otras personas por su parte, el Arrendatario tendrá que pagar restitución, y el Arrendatario se acuerda en pagar la cantidad de beneficios que no tenía el derecho de recibir. ^{3560.156(c)(4)}

9. AUSENCIA DE OCUPACIÓN:

A. El Arrendatario se acuerda que notificará prontamente a la Administración de cualquier ausencia extendida, y si el Arrendatario no vive personalmente en la unidad durante **un período que excede 60 días consecutivos**, por razones que no sean de salud o emergencia, la contribución mensual del Arrendatario será aumentada a \$____/por mes (Alquiler Base/A Precio del Mercado) durante el período de ausencia **que excede 60 días consecutivos**. Además, el Arrendatario entiende que si su Asistencia de Alquiler sea suspendida o asignada a otro arrendatario elegible, no se garantiza que todavía estará disponible cuando regresa. El Arrendatario entiende también que si sigue su ausencia, la Gerencia puede tomar los pasos apropiados para terminar su tenencia. ^{3560.156(c)(18)(xiii)}

Iniciales _____

B. El Arrendatario se acuerda en notificar a la Gerencia de cualquier ausencia extendida planeada de 2 semanas o más.

10. **DAÑOS:** El Dueño se acuerda en utilizar diligencias legales separadas para cobrar reclamos monetarios por daños, con la excepción de daños en el sentido de valor de alquiler u otros daños ocasionados por la retención ilegal de la propiedad. El Dueño se acuerda en aceptar pagos de alquiler sin tomar en cuenta otros cargos debidos al Dueño por parte del Arrendatario. El Arrendatario y el Dueño se acuerdan que el alcance de daños disponibles incluirá, pero no será limitado a, los específicamente previstos en el Artículo 1951.4 del Código Civil de California. ^{3560.156(c)(18)(ix)}

11. INSPECCIÓN DE LA PROPIEDAD:

A. El Arrendatario reconoce que ha inspeccionado la propiedad completamente y cuidadosamente, tal como la propiedad personal contenida allí, y no ha habido ninguna declaración o representación hecha que no se encuentra manifestada aquí dentro sobre la condición en el pasado, presente o futuro de la propiedad o cualquier edificio del cual la propiedad es parte, sea por o por parte de la Administración. Por medio de tomar posesión bajo el presente, el Arrendatario reconoce que la Propiedad está lista para ocupación, y se encuentra en buenas y sanitarias condiciones, y por medio del presente renuncia cualquier reclamo o derecho sobre la condición o estado de la Propiedad o tal propiedad personal, con la excepción de lo anotado en el Formulario de Inspección de Entrada/Salida, del cual se le entregará una copia al Arrendatario al instalarse. Le han dado al Arrendatario la oportunidad de acompañar al

Gerente en la inspección de la Propiedad al instalarse, y ha ayudado a la Administración a llenar el formulario. La firma del Arrendatario en el Formulario de Inspección (*Move In Inspection Form*) reconoce que el formulario indica precisamente la condición de la Propiedad. Cuando sale de la propiedad, el Arrendatario tendrá otra vez la oportunidad de acompañar al Gerente en la inspección de la Propiedad. La firma del Arrendatario en el Formulario de Inspección (*Move Out Form*) reconocerá que el formulario describe precisamente la condición de la Propiedad cuando sale, pero no que el Arrendatario esté de acuerdo con los cargos contra su depósito, si es que hayan. 3560.156(c)(18)(xii)

B. El Arrendatario se acuerda en entregar la Propiedad (incluso todas las llaves) a la Gerencia cuando termina su tenencia en las mismas condiciones buenas que cuando la recibió, con la excepción de desgaste normal.

C. El Dueño proveerá mantenimiento de la propiedad como sigue:

1. La propiedad y todo el equipo contenido en ella, tanto como las áreas comunes, instalaciones y equipo proveído para el uso y beneficio del Arrendatario, serán mantenidos en condiciones decentes, seguras y sanitarias. El Dueño responderá dentro de un período de tiempo razonable a las llamadas del Arrendatario pidiendo servicios consistentes con dicha obligación. Cuando aplique (como en los casos de edificios de varias unidades), dicho mantenimiento de las áreas comunes, instalaciones y equipo incluirá la limpieza y mantenimiento del terreno, céspedes y arbustos. El/los Arrendatario(s) puede(n) entablar una queja si el Dueño falta de proveer el mantenimiento debido (véase el Párrafo 17, Quejas).
3560.156(c)(18)(x)

2. El Dueño proveerá servicios de exterminación rutinarios como requieran las condiciones. Si se proveerá dicho servicio en un horario fijo, será como sigue: SERVICIOS PROVEÍDOS CADA VIERNES A PETICIÓN DEL ARRENDATARIO. _____
Iniciales _____

D. Si dentro de un período de tiempo razonable después de avisar a la Gerencia de deterioros que crean una morada intolerable que el Dueño debe reparar, el Arrendatario podrá hacer las reparaciones, con tal que el costo de la reparación no requiera un gasto que exceda un mes de alquiler de la propiedad, y podrá descontar el costo del Alquiler, o el Arrendatario podrá desocupar la Propiedad; en tal caso será exonerado de pago adicional de alquiler, o cumplimiento con otras condiciones. Este remedio no estará disponible al Arrendatario más de dos veces durante cualquier período de 12 meses. Para los fines de esta sección, si el Arrendatario actúa para hacer reparaciones y rebajar el costo del alquiler después de 30 días de dar el aviso, se supondrá que actuó después de un período de tiempo razonable.

12. **INSPECCIONES Y REPARACIONES:** Al recibir previo aviso escrito de la Gerencia, el Arrendatario permitirá que el Dueño, su agente, representantes de USDA-RD, o cualquier representante del tenedor de la hipoteca de la propiedad, entre a la propiedad con el fin de hacer inspecciones y reparaciones razonables. EXCEPCIÓN: El Dueño o su agente tendrá el derecho de entrar a la propiedad sin previo aviso si (1) El Arrendatario ha abandonado o entregado la propiedad, o (2) la Gerencia razonablemente cree que existe una emergencia que requiere su entrada. En caso de emergencia, la Gerencia tendrá que notificar prontamente al Arrendatario por escrito de la fecha, hora y propósito de tal entrada, y de la urgencia que la requirió. Aparte de

emergencias, se supondrá que **48 horas de previo aviso por escrito** será aviso razonable.
3560.156(c)(18)(xii)

13. MANTENIMIENTO Y COSTOS POR REPARACIONES: El Arrendatario pagará los costos de mantenimiento y reparaciones, con la excepción de desgaste normal, de acuerdo con la Lista de Cargos por Daños Causados por el Residente y Llamadas de Servicio de Mantenimiento mantenida por la GERENCIA. La Lista de Cargos por Daños Causados por el Residente y Llamadas de Mantenimiento según exista será incorporada por referencia en el presente Contrato de Arriendo. Hay copias de la Lista de Cargos por Daños Causados por el Residente y Llamadas de Servicio de Mantenimiento fijadas en las oficinas de la Gerencia, y el Arrendatario recibirá una copia al pedirla. Los costos de mantenimiento y reparaciones serán considerados iguales que el alquiler. La Gerencia tiene la opción de iniciar acción legal para cobrar costos no pagados o, conforme con el Párrafo 16, puede terminar la tenencia del Arrendatario por faltar de pagar repetidamente.

A. Si el ARRENDATARIO pide una visita de servicio por cualquier razón, los representantes de la GERENCIA pueden entrar sin mandar una notificación escrita al ARRENDATARIO.

B. En caso que el ARRENDATARIO y todos los adultos de la unidad familiar estén ausentes de la propiedad en el momento de entrar, la GERENCIA dejará una nota escrita indicando la fecha, hora y razón por la entrada.

14. Si después de una limpieza normal y completa, el crecimiento de moho y mildiú parece abnormal o difícil de controlar, el residente debería reportar las circunstancias en escrito a la plantilla de mantenimiento, y pedir que evalúe, trate y elimine el moho o mildiú abnormal que haya en la residencia. El residente será responsable por los costos de reparaciones a la plomería asociados con pelo, comida y objetos encontrados en los drenajes y pipas. El residente tiene la responsabilidad de reportar desagües lentos a la plantilla de mantenimiento. La Autoridad de la Vivienda arreglará las reparaciones a la plomería. If a person vacating the unit, as a result of the above policies, is one of the lessees, the person shall be severed from the tenancy and the lease shall continue among any other remaining lessees and the landlord. The landlord may also, at the option of the landlord, permit another adult member of the household to be a lessee.

All hearings will be held at a time and place mutually convenient to both parties. If the parties cannot agree on a meeting place or time, the hearing officer or hearing panel will designate the place and time.
- (6) Escrow deposits. If a grievance involves a rent increase not authorized by the Agency, or a situation where a borrower fails to maintain the property in a decent, safe, and sanitary manner, rental payments may be deposited by the tenant into an escrow account, provided the tenant's rental payments are otherwise current.
- (i) The escrow account deposits must continue until the complaint is resolved through informal discussion or by the hearing officer or panel.
 - (ii) The escrow account must be in a Federally-insured institution or with a bonded independent agent.
 - (iii) Failure to make timely rent payments into the escrow account will result in a termination of the tenant grievance and appeals procedure and all sums will immediately become due and payable under the lease.
 - (iv) Receipts of escrow account deposits must be available for examination by the borrower.
- (7) Failure to request a hearing. If the tenant or prospective tenant does not request a hearing within the time provided by paragraph (f)(1) of this section, the borrower's disposition of the grievance or appeal will become final.

(h) Requirements governing the hearing. The following requirements will govern the hearing process.

- (1) Subject to paragraph (f)(2) of this section, the hearing will proceed before a hearing officer or hearing panel at which evidence may be received without regard to whether that evidence could be used in judicial proceedings.
 - (2) The hearing must be structured so as to provide basic due process safeguards for both the borrower and the tenants or prospective tenants, which must protect:
 - (i) The right of both parties to be represented by counsel or other person chosen as their representative;
 - (ii) The right of the tenant or prospective tenant to a private hearing unless a public hearing is requested;
 - (iii) The right of the tenant or prospective tenant to present oral or written evidence and arguments in support of their grievance or appeal and to cross-examine and refute the evidence of all witnesses on whose testimony or information the borrower relies; and
 - (iv) The right of the borrower to present oral and written evidence and arguments in support of the decision, to refute evidence relied upon by the tenant or prospective tenant, and to confront and cross-examine all witnesses in whose testimony or information the tenant or prospective tenant relies.
 - (3) At the hearing, the tenant or prospective tenant must present evidence that they are entitled to the relief sought, and the borrower must present evidence showing the basis for action or failure to act against that which the grievance or appeal is directed.
 - (4) The hearing officer or hearing panel must require that the borrower, the tenant or prospective tenant, counsel, and other participants or spectators conduct themselves in an orderly manner. Failure to comply may result in exclusion from the proceedings or in a decision adverse to the interests of the disorderly party and granting or denial of the relief sought, as appropriate.
 - (5) If either party or their representative fails to appear at a scheduled hearing, the hearing officer or hearing panel may make a determination to postpone the hearing for no more than five days or may make a determination that the absent party has waived their right to a hearing under this subpart. If the determination is made that the absent party has waived their rights, the hearing officer or hearing panel will make a decision on the grievance. Both the tenant or prospective tenant and the borrower must be notified in writing of the determination of the hearing officer or hearing panel.
- (i) Decision. Hearing decisions must be issued in accordance with the following requirements.
- (1) The hearing officer or hearing panel has the authority to affirm or reverse a borrower's decision.

- (2) The hearing officer or hearing panel must prepare a written decision, together with the reasons thereof based solely and exclusively upon the facts presented at the hearing within 10 calendar days after the hearing. The notice must state that the decision is not effective for 10 calendar days to allow time for an Agency review as specified in paragraphs (i)(3) and (i)(4) of this section.
- (3) The hearing officer or hearing panel must send a copy of the decision to the tenant, or prospective tenant, borrower, and the Agency.
- (4) The decision of the hearing officer or hearing panel shall be binding upon the parties to the hearing unless the parties to the hearing are notified within 10 calendar days by the Agency that the decision is not in compliance with Agency regulations.
- (5) Upon receipt of written notification from the hearing officer or hearing panel, the borrower and tenant must take the necessary action, or refrain from any actions, specified in the decision.

PROPOSITION 65 WARNING AND QUESTIONS & ANSWERS ADDENDUM

WARNING:

This Property Contains Chemicals Known To The State of California
To Cause Cancer and Birth Defects or Other Reproductive Harm.

"Proposition 65 in Plain Language"

Office of Environmental Health Hazard Assessment
California Environmental Protection Agency

What is Proposition 65?

In 1986, California voters approved an initiative to address their growing concerns about exposure to toxic chemicals. That initiative became the Safe Drinking Water and Toxic Enforcement Act of 1986, better known by its original name of Proposition 65. Proposition 65 requires the State to publish a list of chemicals known to cause cancer or birth defects or other reproductive harm. This list, which must be updated at least once a year, has grown to include approximately 750 chemicals since it was first published in 1987.

Proposition 65 requires businesses to notify Californians about significant amounts of chemicals in the products they purchase, in their homes or workplaces, or that are released into the environment. By providing this information, Proposition 65 enables Californians to make informed decisions about protecting themselves from exposure to these chemicals. Proposition 65 also prohibits California businesses from knowingly discharging significant amounts of listed chemicals into sources of drinking water.

The Office of Environmental Health Hazard Assessment (OEHHA) administers the Proposition 65 program. OEHHA, which is part of the California Environmental Protection Agency (Cal/EPA), also evaluates all currently available scientific information on substances considered for placement on the Proposition 65 list.

What types of chemicals are on the Proposition 65 list?

The list contains a wide range of naturally occurring and synthetic chemicals that are known to cause cancer or birth defects or other reproductive harm. These chemicals include additives or ingredients in pesticides, common household products, food, drugs, dyes, or solvents. Listed chemicals may also be used in manufacturing and construction, or they may be byproducts of chemical processes, such as motor vehicle exhaust.

How is a chemical added to the list?

There are three principal ways for a chemical to be added to the Proposition 65 list. A chemical can be listed if either of two independent committees of scientists and health professionals finds that the chemical has been clearly shown to cause cancer or birth defects or other reproductive harm. These two committees—the Carcinogen Identification Committee (CIC) and the Developmental and Reproductive Toxicant (DART) Identification Committee—are part of OEHHA's Science Advisory Board. The committee members are appointed by the Governor and are designated as the "State's Qualified Experts" for evaluating chemicals under Proposition 65. When determining whether a chemical should be placed on the list, the committees base their decisions on the most current scientific information available. OEHHA staff scientists compile all relevant scientific evidence on various chemicals for the committees to review. The committees also consider comments from the public before making their decisions.

A second way for a chemical to be listed is if an organization designated as an "authoritative body" by the CIC or DART Identification Committee has identified it as causing cancer or birth defects or other

reproductive harm. The following organizations have been designated as authoritative bodies: the U.S. Environmental Protection Agency, U.S. Food and Drug Administration (U.S. FDA), National Institute for Occupational Safety and Health, National Toxicology Program, and International Agency for Research on Cancer.

A third way for a chemical to be listed is if an agency of the state or federal government requires that it be labeled or identified as causing cancer or birth defects or other reproductive harm. Most chemicals listed in this manner are prescription drugs that are required by the U.S. FDA to contain warnings relating to cancer or birth defects or other reproductive harm.

In addition to these three listing procedures, Proposition 65 also requires the listing of chemicals meeting certain scientific criteria and identified in the California Labor Code as causing cancer or birth defects or other reproductive harm. This method was used to establish the initial chemical list following voter approval of Proposition 65 in 1986.

What requirements does Proposition 65 place on companies doing business in California?

Businesses are required to provide a "clear and reasonable" warning before knowingly and intentionally exposing anyone to a listed chemical. This warning can be given by a variety of means, such as by labeling a consumer product, posting signs at the workplace, distributing notices at a rental housing complex, or publishing notices in a newspaper. Once a chemical is listed, businesses have 12 months to comply with warning requirements.

Proposition 65 also prohibits companies that do business within California from knowingly discharging listed chemicals into sources of drinking water. Once a chemical is listed, businesses have 20 months to comply with the discharge prohibition.

Businesses with less than 10 employees and government agencies are exempt from Proposition 65's warning requirements and prohibition on discharges into drinking water sources. Businesses are also exempt from the warning requirement and discharge prohibition if the exposures they cause are so low as to create no significant risk of cancer or birth defects or other reproductive harm. Health risks are explained in more detail below.

What does a warning mean?

If a warning is placed on a product label or posted or distributed at the workplace, a business, or in rental housing, the business issuing the warning is aware or believes that one or more listed chemicals is present. By law, a warning must be given for listed chemicals unless exposure is low enough to pose no significant risk of cancer or is significantly below levels observed to cause birth defects or other reproductive harm.

For a chemical that causes cancer, the "no significant risk level" is defined as the level of exposure that would result in not more than one excess case of cancer in 100,000 individuals exposed to the chemical over a 70-year lifetime. In other words, a person exposed to the chemical at the "no significant risk level" for 70 years would not have more than a "one in 100,000" chance of developing cancer as a result of that exposure.

For chemicals that are listed as causing birth defects or reproductive harm, the "no observable effect level" is determined by identifying the level of exposure that has been shown to not pose any harm to humans or laboratory animals. Proposition 65 then requires this "no observable effect level" to be divided by 1,000 in order to provide an ample margin of safety. Businesses subject to Proposition 65 are required to provide a warning if they cause exposures to chemicals listed as causing birth defects or reproductive harm that exceed 1/1000th of the "no observable effect level."

To further assist businesses, OEHHA develops numerical guidance levels, known as "safe harbor numbers" (described below) for determining whether a warning is necessary or whether discharges of a chemical into drinking water sources are prohibited. However, a business may choose to provide a warning simply based on its knowledge, or assumption, about the presence of a listed chemical without attempting to evaluate the levels of exposure. Because businesses do not file reports with OEHHA

regarding what warnings they have issued and why, OEHHA is not able to provide further information about any particular warning. The business issuing the warning should be contacted for specific information, such as what chemicals are present, and at what levels, as well as how exposure to them may occur.

What are safe harbor numbers?

As stated above, to guide businesses in determining whether a warning is necessary or whether discharges of a chemical into drinking water sources are prohibited, OEHHA has developed safe harbor numbers. A business has "safe harbor" from Proposition 65 warning requirements or discharge prohibitions if exposure to a chemical occurs at or below these levels. These safe harbor numbers consist of no significant risk levels for chemicals listed as causing cancer and maximum allowable dose levels for chemicals listed as causing birth defects or other reproductive harm. OEHHA has established safe harbor numbers for nearly 250 chemicals to date and continues to develop safe harbor numbers for listed chemicals.

Who enforces Proposition 65?

The California Attorney General's Office enforces Proposition 65. Any district attorney or city attorney (for cities whose population exceeds 750,000) may also enforce Proposition 65. In addition, any individual acting in the public interest may enforce Proposition 65 by filing a lawsuit against a business alleged to be in violation of this law.

Lawsuits have been filed by: the Attorney General's Office, district attorneys, consumer advocacy groups, and private citizens and law firms. Penalties for violating Proposition 65 by failing to provide notices can be as high as \$2,500 per violation per day.

How is Proposition 65 meeting its goal of reducing exposure to hazardous chemicals in California?

Since it was passed in 1986, Proposition 65 has provided Californians with information they can use to reduce their exposures to listed chemicals that may not have been adequately controlled under other State or federal laws. This law has also increased public awareness about the adverse effects of exposures to listed chemicals. For example, Proposition 65 has resulted in greater awareness of the dangers of alcoholic beverage consumption during pregnancy. Alcohol consumption warnings are perhaps the most visible health warnings issued as a result of Proposition 65.

Proposition 65's warning requirement has provided an incentive for manufacturers to remove listed chemicals from their products. For example, trichloroethylene, which causes cancer, is no longer used in most correction fluids; reformulated paint strippers do not contain the carcinogen methylene chloride; and toluene, which causes birth defects or other reproductive harm, has been removed from many nail care products. In addition, a Proposition 65 enforcement action prompted manufacturers to decrease the lead content in ceramic tableware and wineries to eliminate the use of lead-containing foil caps on wine bottles.

Proposition 65 has also succeeded in spurring significant reductions in California of air emissions of listed chemicals, such as ethylene oxide, hexavalent chromium, and chloroform.

Although Proposition 65 has benefited Californians, it has come at a cost for companies doing business in the state. They have incurred expenses to test products, develop alternatives to listed chemicals, reduce discharges, provide warnings, and otherwise comply with this law. Recognizing that compliance with Proposition 65 comes at a price, OEHHA is working to make the law's regulatory requirements as clear as possible and ensure that chemicals are listed in accordance with rigorous science in an open public process.

ANEXO DE LA PROPOSICIÓN 65

ADVERTENCIA Y PREGUNTAS Y RESPUESTAS

ADVERTENCIA:

Esta Propiedad Contiene Sustancias Químicas Conocidas por el Estado de California que Causan Cáncer y Defectos Congénitos u Otro Daño Reproductivo

"La Proposición 65 en Lenguaje Claro"

Oficina de Evaluación de Peligros Medioambientales a la Salud
Agencia de Protección Medioambiental de California

¿Qué es la Proposición 65?

En 1986, los votantes de California aprobaron una iniciativa para responder a su preocupación creciente sobre exposición a sustancias químicas tóxicas. La iniciativa llegó a ser la Ley de Sustancias Tóxicas y Agua Potable Segura de 1986, mejor conocida por su nombre original, Proposición 65.

La Proposición 65 requiere que el Estado publique una lista de sustancias químicas conocidas que causan cáncer, defectos congénitos u otro daño reproductivo. La lista tiene que ser actualizada al menos una vez al año. Ahora incluye aproximadamente 750 sustancias químicas desde que fue publicada por primera vez en 1987.

La Proposición 65 requiere que los negocios notifiquen a los Californianos sobre cantidades significativas de sustancias químicas presentes en los productos que compran, sus hogares o lugares de trabajo, o que sean emitidas al medioambiente. Por medio de proveer esa información, la Proposición 65 permite que los Californianos tomen decisiones para protegerse de exposición a esas sustancias químicas. La Proposición 65 también dispone que negocios californianos son prohibidos de a sabiendas emitir a fuentes de agua potable cantidades significativas de sustancias químicas incluidas en la lista.

La Oficina de Evaluación de Peligros Ambientales a la Salud (OEHHA) administra el programa de la Proposición 65. La OEHHA es parte de la Agencia de Protección Medioambiental de California (Cal/EPA). Evalúa también toda la información actualmente disponible sobre sustancias bajo consideración para la lista de la Proposición 65.

¿Cuáles clases de sustancias químicas hay en la lista de la Proposición 65?

La lista contiene una amplia gama de sustancias químicas naturales y sintéticas conocidas que causan cáncer o defectos congénitos u otro daño reproductivo. Esas sustancias químicas incluyen aditivos o ingredientes en pesticidas, productos caseros comunes, comidas, drogas, colorantes y disolventes. Las sustancias químicas incluidas pueden ser usadas en fabricación y construcción, y pueden ser subproductos de procesos químicos, tales como gases de combustión de automóviles.

¿Cómo se agrega una sustancia química a la lista?

Hay tres maneras principales para agregar una sustancia química a la lista de la Proposición 65. Una sustancia química puede ser agregada si uno de dos comités independientes de científicos y profesionales de salud encuentra que se ha demostrado claramente que la sustancia química causa cáncer o defectos congénitos u otro daño reproductivo.

Los dos comités – el Comité de Identificación de Carcinógenos (CIC) y el Comité de Identificación de Sustancias Tóxicas al Desarrollo y Reproducción (DART) – forman parte de la Junta Asesor Científica de la OEHHA. Los miembros del comité son nombrados por el Gobernador, y son los “Peritos Calificados del Estado” designados para evaluar sustancias químicas bajo la Proposición 65. Cuando se determina que una sustancia química debe ser incluída en la lista, el comité basa sus decisiones en la información científica más actualizada que hay disponible. Los científicos de la plantilla de la OEHHA reúnen toda la evidencia científica pertinente sobre las varias sustancias químicas que estudian. Los comités también consideran comentarios del público antes de tomar sus decisiones.

Una sustancia química puede ser incluída en la lista de otra manera, si una organización designada como “entidad autoritativa” por el CIC o el Comité de Identificación DART la ha identificado como sustancia que causa cáncer, defectos congénitos u otro daño reproductivo. Las organizaciones siguientes son designadas como entidades autoritativas: La Agencia para la Protección del Medio Ambiente de los EEUU, la Administración de Drogas y Alimentos de los EEUU (U.S. FDA), el Instituto Nacional para la Seguridad y Salud en el Trabajo, el Programa Nacional de Toxicología, y la Agencia Internacional para Investigaciones sobre el Cáncer.

Una sustancia química puede ser incluída de una tercera manera, si una agencia del gobierno estatal o federal requiere que sea identificada o que declare en la etiqueta que causa cáncer, defectos congénitos u otro daño reproductivo. La mayoría de las sustancias químicas incluídas de esta manera son drogas recetadas que tienen que llevar advertencias relacionadas al cáncer, defectos congénitos u otro daño reproductivo por la FDA.

Además de estos tres procedimientos de inclusión en la lista, la Proposición 65 requiere también la enumeración de sustancias químicas que cumplen cierto criterio científico y han sido identificados en el Código Laboral del California como sustancias que causan cáncer, defectos congénitos u otro daño reproductivo. La lista inicial de sustancias químicas fue establecida por ese método después de la aprobación de la Proposición 65 por los votantes en 1986.

¿Cuáles son los requisitos que impone la Proposición 65 en las compañías que hacen negocios en California?

Los negocios tienen que proveer una advertencia “clara y razonable” antes de exponer a alguien, a sabiendas e intencionalmente, a una sustancia química incluída en la lista. Se puede dar la advertencia por varias maneras, tales como información incluída en la etiqueta de un producto para consumidores, carteles fijados en un sitio laboral, distribución de avisos en un complejo de viviendas alquiladas, o la publicación de avisos en un periódico. Al ser incluída una sustancia química en la lista, los negocios tendrán 12 meses para cumplir con los requisitos de aviso.

La Proposición 65 también prohíbe a los compañías que hacen negocios en California de emitir o echar sustancias químicas identificadas en la lista a fuentes de agua potable. Al ser incluída una sustancia química en la lista, los negocios tendrán 20 meses para cumplir con la prohibición de emisión.

Los negocios que tienen menos de 10 empleados y el gobierno son exentos de los requisitos de aviso de la Proposición 65, tanto como la prohibición de emisión a fuentes de agua potable. Los negocios también tienen exención del requisito de aviso y prohibición de emisión si la exposición causada es tan baja que no crea ningún riesgo significativo de cáncer, defectos congénitos u otro daño reproductivo. A continuación se encuentra una explicación más a fondo de los riesgos a la salud.

¿Qué significa una advertencia?

Si aparece una advertencia en la etiqueta de un producto, o si es fijada o distribuida en un lugar de trabajo, negocio o vivienda alquilada, el negocio que avisa está consciente de o cree que está presente una o más sustancias químicas incluídas en la lista. La ley requiere que se dé una advertencia de la presencia de sustancias químicas incluídas en la lista a menos que la exposición sea suficiente mínima que no presente ningún riesgo significativo de cáncer, o que está considerablemente menor de los niveles observados que causan defectos congénitos u otro daño reproductivo.

Para una sustancia que causa cáncer, el “nivel sin riesgo significativo” se define como el nivel de exposición que no resultaría en más que un caso exceso de cáncer en 100,000 individuos expuestos a la sustancia química durante toda una vida de 70 años. En otras palabras, una persona expuesta a la sustancia química al “nivel sin riesgo significativo” durante 70 años no tendría más que “una posibilidad en 100,000” de desarrollar cáncer como resultado de la exposición.

El “nivel sin riesgo perceptible” de sustancias químicas incluidas en la lista como causantes de defectos congénitos u otro daño reproductivo se determina por medio de identificar el nivel de exposición que ha sido demostrado no causar ningún daño a seres humanos o animales de laboratorio. La Proposición 65 requiere que el “nivel sin riesgo perceptible” sea dividido por 1,000 para dar un amplio margen de seguridad. Los negocios sujetos a la Proposición 65 tienen el requisito de proveer una advertencia si causan exposiciones a sustancias químicas incluidas en la lista de sustancias que causan defectos congénitos u otro daño reproductivo que exceden 1/1000 del “nivel sin riesgo perceptible”.

Para asistir más a los negocios, la OEHHA desarrolla niveles numéricos de guía, conocidos como “números de puerto seguro” (descritos abajo) para determinar si una advertencia sea necesaria o si emisiones de una sustancia química a fuentes de agua potable sean prohibidas. Sin embargo, un negocio puede elegir proveer una advertencia basándose solamente en su conocimiento o suposición sobre la presencia de una sustancia química incluida en la lista sin intentar evaluar los niveles de exposición. Como los negocios no entregan informes a la OEHHA sobre las advertencias que dan, o las razones, la OEHHA no puede proporcionar información adicional sobre alguna advertencia específica. Habría que comunicarse con el negocio para conseguir información específica, tal como cuáles son las sustancias químicas presentes, a qué niveles, y como podría ser expuesto a ellas.

¿Qué son números de puerto seguro?

Como indica arriba, la OEHHA ha desarrollado números de puerto seguro para guiar a los negocios en su determinación de si una advertencia sea necesaria, o si son prohibidas emisiones de una sustancia química a fuentes de agua potable. Un negocio tiene “puerto seguro” de los requisitos de advertencia o prohibiciones de emisión de la Proposición 65 si la exposición a una sustancia química sucede a estos niveles o menos. Los números de puerto seguro se definen por niveles de ningún riesgo significativo presentado por las sustancias químicas enumeradas como causantes de cáncer y los niveles permisibles máximos de sustancias químicas que causan defectos congénitos u otro daño reproductivo. Hasta la fecha, la OEHHA ha determinado números de puerto seguro para casi 250 sustancias químicas, y sigue determinando números de puerto seguro para las sustancias químicas incluidas en la lista.

¿Quién hace cumplir la Proposición 65?

El Fiscal General del Estado de California hace cumplir la Proposición 65. Cualquier fiscal o abogado municipal (de ciudades cuya población excede 750,000) también puede implementar la Proposición 65. Además, cualquier individuo que actúa en el interés del público puede hacer cumplir la Proposición 65 por medio de entablar una demanda contra un negocio que supuestamente ha infringido esa ley.

Han habido demandas entabladas por el Fiscal General del Estado, fiscales locales, grupos defensores de consumidores, y ciudadanos particulares y bufetes de abogados. Las penas por infringir la Proposición 65 por medio de no fijar avisos pueden llegar a hasta \$2,500 por día por cada infracción.

¿Cómo logra la Proposición 65 su objetivo de reducir exposición a sustancias químicas peligrosas en California?

Desde que fue aprobado en 1986, la Proposición 65 ha proporcionado información a los Californianos que pueden usar para reducir su exposición a sustancias químicas incluidas en la lista que posiblemente no hayan sido controladas adecuadamente bajo otras leyes estatales o federales. La ley ha aumentado el conocimiento público de los efectos adversos de exposición a las sustancias químicas incluidas en la lista. Por ejemplo, la Proposición 65 ha creado un conocimiento mayor de los peligros del consumo de bebidas

alcohólicas durante el embarazo. Tal vez las etiquetas que avisan sobre el consumo de alcohol sean las advertencias de salud más visibles que resultan de la Proposición 65.

El requisito de advertencia de la Proposición 65 ha motivado a los fabricantes a quitar sustancias químicas incluidas en la lista de sus productos. Por ejemplo, ya no se usa tricloroetileno, que causa cáncer, en la mayoría de líquidos correctores; decapantes reformulados ya no contienen el carcinógeno cloruro metílico; y tolueno, que causa defectos congénitos u otro daño reproductivo, ya no se encuentra en muchos productos para el cuidado de las uñas. Además, una acción para hacer cumplir la Proposición 65 motivó a los fabricantes a reducir el contenido de plomo en vajillas y eliminar el uso de chapas de metal con plomo en botellas de vino.

La Proposición 65 también ha estimulado reducciones significativas de emisiones al aire en California de sustancias químicas incluidas en la lista, tales como óxido de etileno, cromo hexavalente y cloroformo.

Aunque la Proposición 65 ha beneficiado a los Californianos, ha tenido su precio para las compañías que hacen sus negocios en el estado. Han incurrido en gastos para poner sus productos a prueba, desarrollar alternativos a las sustancias en la lista, reducir emisiones, proveer advertencias y por lo demás cumplir con esa ley. La OEHHA reconoce que cumplir con esa ley tiene su precio, y trabaja para que los requisitos de la ley sean tan claros como sea posible, y asegura que las sustancias químicas sean incluidas en la lista conforme con ciencia rigurosa en un proceso abierto al público.

Protect Your Family From Lead in

Your Home

IMPORTANT!

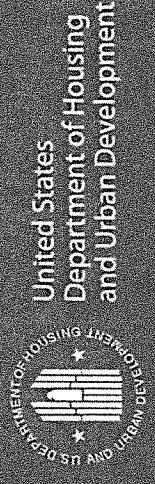

Lead From Paint, Dust, and Soil in and Around Your Home Can Be Dangerous if Not Managed Properly

- Children under 6 years old are most at risk for lead poisoning in your home.
- Lead exposure can harm young children, babies, and fetuses even before they are born.
- Homes, schools, and child care facilities built before 1978 are likely to contain lead-based paint.
- Even children who seem healthy may have dangerous levels of lead in their bodies.
- Disturbing surfaces with lead-based paint or removing lead-based paint improperly can increase the danger to your family.
- People can get lead into their bodies by breathing or swallowing lead dust, or by eating soil or paint chips containing lead.
- People have many options for reducing lead hazards. Generally, lead-based paint that is in good condition is not a hazard (see page 10).

Are You Planning to Buy or Rent a Home Built Before 1978?

Did you know that many homes built before 1978 have lead-based paint? Lead from paint, chips, and dust can pose serious health hazards.

Read this entire brochure to learn:

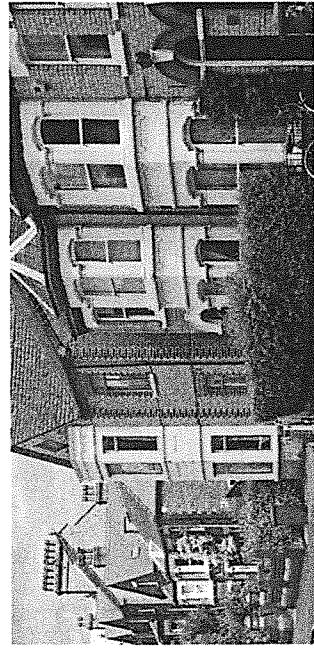

- How lead gets into the body
- About health effects of lead
- What you can do to protect your family
- Where to go for more information

Before renting or buying a pre-1978 home or apartment, federal law requires:

- Sellers must disclose known information on lead-based paint or lead-based paint hazards before selling a house.
- Real estate sales contracts must include a specific warning statement about lead-based paint. Buyers have up to 10 days to check for lead.
- Landlords must disclose known information on lead-based paint and lead-based paint hazards before leases take effect. Lessees must include a specific warning statement about lead-based paint.

If undertaking renovations, repairs, or painting (R&P) projects in your pre-1978 home or apartment:

- Read EPA's pamphlet, *The Lead-Safe Certified Guide to Renovate Right*, to learn about the lead-safe work practices that contractors are required to follow when working in your home (see page 12).

Simple Steps to Protect Your Family from Lead Hazards

If you think your home has lead-based paint:

- Don't try to remove lead-based paint yourself.
- Always keep painted surfaces in good condition to minimize deterioration.

Get your home checked for lead hazards. Find a certified inspector or risk assessor at epa.gov/lead.

- Talk to your landlord about fixing surfaces with peeling or chipping paint.
- Regularly clean floors, window sills, and other surfaces.

- Take precautions to avoid exposure to lead dust when remodeling.
- When renovating, repairing, or painting, hire only EPA- or state-approved Lead-Safe certified renovation firms.
- Before buying, renting, or renovating your home have it checked for lead-based paint.

Consult your health care provider about testing your children for lead. Your pediatrician can check for lead with a simple blood test.

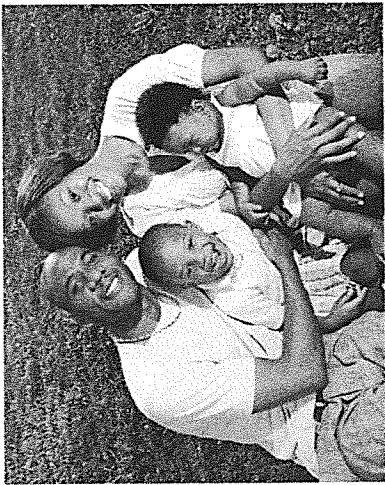

- Wash children's hands, bottles, pacifiers, and toys often.
- Make sure children eat healthy, low-fat foods high in iron, calcium, and vitamin C.
- Remove shoes or wipe soil off shoes before entering your house.

Lead Gets into the Body in Many Ways

Adults and children can get lead into their bodies if they:

- Breathe in lead dust (especially during activities such as renovations, repairs, or painting that disturb painted surfaces).
- Swallow lead dust that has settled on food, food preparation surfaces, and other places.
- Eat paint chips or soil that contains lead.

Lead is especially dangerous to children under the age of 6.

- At this age, children's brains and nervous systems are more sensitive to the damaging effects of lead.
- Children's growing bodies absorb more lead.
- Babies and young children often put their hands and other objects in their mouths. These objects can have lead dust on them.

Women of childbearing age should know that lead is dangerous to a developing fetus.

- Women with a high lead level in their system before or during pregnancy risk exposing the fetus to lead through the placenta during fetal development.

Health Effects of Lead

Lead affects the body in many ways. It is important to know that even exposure to low levels of lead can severely harm children.

In children, exposure to lead can cause:

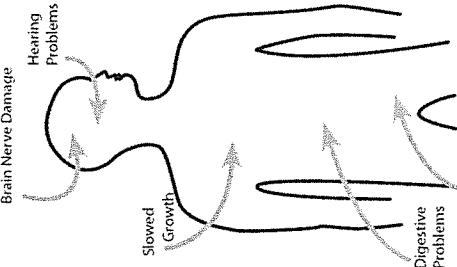

- Nervous system and kidney damage
- Learning disabilities, attention deficit disorder, and decreased intelligence
- Speech, language, and behavior problems
- Poor muscle coordination
- Decreased muscle and bone growth
- Hearing damage

While low-lead exposure is most common, exposure to high amounts of lead can have devastating effects on children, including seizures, unconsciousness, and, in some cases, death.

Although children are especially susceptible to lead exposure, lead can be dangerous for adults, too.

In adults, exposure to lead can cause:

- Harm to a developing fetus
- Increased chance of high blood pressure during pregnancy
- Fertility problems (in men and women)
- High blood pressure
- Digestive problems
- Nerve disorders
- Memory and concentration problems
- Muscle and joint pain

Hearing- or speech-challenged individuals may access any of the phone numbers in this brochure through TTY by calling the toll-free Federal Relay Service at 1-800-877-8339.

Check Your Family for Lead

Other Sources of Lead

Get your children and home tested if you think your home has lead.

Children's blood lead levels tend to increase rapidly from 6 to 12 months of age, and tend to peak at 18 to 24 months of age.

Consult your doctor for advice on testing your children. A simple blood test can detect lead. Blood lead tests are usually recommended for:

- Children or other family members who have been exposed to high levels of lead
- Children who should be tested under your state or local health screening plan

Your doctor can explain what the test results mean and if more testing will be needed.

While paint, dust, and soil are the most common sources of lead, other lead sources also exist:

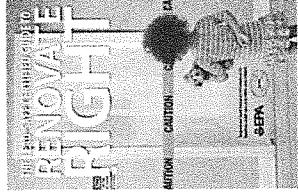

- **Drinking water.** Your home might have plumbing with lead or lead solder. You cannot see, smell, or taste lead, and boiling your water will not get rid of lead. If you think your plumbing might contain lead:
 - Use only cold water for drinking and cooking.
 - Run water for 15 to 30 seconds before drinking it, especially if you have not used your water for a few hours.
- Call your local health department or water supplier to find out about testing your water, or visit epa.gov/lead for EPA's lead in drinking water information.
- **Lead smelters** or other industries that release lead into the air.
- **Your job.** If you work with lead, you could bring it home on your body or clothes. Shower and change clothes before coming home. Launder your work clothes separately from the rest of your family's clothes.
- **Hobbies** that use lead, such as making pottery or stained glass, or refinishing furniture. Call your local health department for information about hobbies that may use lead.
- Old **toys** and **furniture** may have been painted with lead-containing paint. Older toys and other children's products may have parts that contain lead.⁴
- Food and liquids cooked or stored in **lead crystal** or **lead-glazed pottery** or **porcelain** may contain lead.
- Folk remedies, such as "**greta**" and "**azarcon**," used to treat an upset stomach.

⁴ In 1978, the federal government banned toys, other children's products, and furniture with lead-containing paint (16 CFR 1303). In 2008, the federal government banned lead in most children's products. The federal government currently bans lead in excess of 100 ppm by weight in most children's products (76 FR 44463).

Renovating, Remodeling, or Repairing (RRP) a Home With Lead-Based Paint

If you hire a contractor to conduct renovation, repair, or painting (RRP) projects in your pre-1978 home or childcare facility (such as pre-school and kindergarten), your contractor must:

- Be a Lead-Safe Certified firm approved by EPA or an EPA-authorized state program
- Use qualified trained individuals (Lead-Safe Certified renovators) who follow specific lead-safe work practices to prevent lead contamination
- Provide a copy of EPA's lead hazard information document, *The Lead-Safe Certified Guide to Renovate Right*

RRP contractors working in pre-1978 homes and childcare facilities must follow lead-safe work practices that:

- **Contain the work area.** The area must be contained so that dust and debris do not escape from the work area. Warning signs must be put up, and plastic or other impermeable material and tape must be used.
- **Avoid renovation methods that generate large amounts of lead-contaminated dust.** Some methods generate so much lead-contaminated dust that their use is prohibited. They are:

- Open-flame burning or torching
- Sanding, grinding, planing, needle gunning, or blasting with power tools and equipment not equipped with a shroud and HEPA vacuum attachment and
- Using a heat gun at temperatures greater than 1100°F
- **Clean up thoroughly.** The work area should be cleaned up daily. When all the work is done, the area must be cleaned up using special cleaning methods.
- **Dispose of waste properly.** Collect and seal waste in a heavy duty bag or sheeting. When transported, ensure that waste is contained to prevent release of dust and debris.

To learn more about EPA's requirements for RRP projects visit epa.gov/getleadsafe, or read *The Lead-Safe Certified Guide to Renovate Right*.

Where Lead-Based Paint Is Found

In general, the older your home or childcare facility, the more likely it has lead-based paint.¹

Many homes, including private, federally assisted, federally owned housing, and childcare facilities built before 1978 have lead-based paint. In 1978, the federal government banned consumer uses of lead-containing paint.²

Learn how to determine if paint is lead-based paint on page 7.

Lead can be found:

- In homes and childcare facilities in the city, country, or suburbs,
- In private and public single-family homes and apartments,
- On surfaces inside and outside of the house, and
 - In soil around a home. (Soil can pick up lead from exterior paint or other sources, such as past use of leaded gas in cars.)

Learn more about where lead is found at epa.gov/lead.

¹ "Lead-based paint" is currently defined by the federal government as paint with lead levels greater than or equal to 1.0 milligram per square centimeter (mg/cm²), or more than 0.5% by weight.

² "Lead-containing paint" is currently defined by the federal government as lead in new dried paint in excess of 90 parts per million (ppm) by weight.

Identifying Lead-Based Paint and Lead-Based Paint Hazards

Reducing Lead Hazards, continued

Deteriorating lead-based paint (peeling, chipping, chalking, cracking, or damaged paint) is a hazard and needs immediate attention. **Lead-based paint** may also be a hazard when found on surfaces that children can chew or that get a lot of wear and tear, such as:

- On windows and window sills
- Doors and door frames
- Stairs, railings, banisters, and porches

Lead-based paint is usually not a hazard if it is in good condition and if it is not on an impact or friction surface like a window.

Lead dust can form when lead-based paint is scraped, sanded, or heated. Lead dust also forms when painted surfaces containing lead bump or rub together. Lead paint chips and dust can get on surfaces and objects that people touch. Settled lead dust can reenter the air when the home is vacuumed or swept, or when people walk through it. EPA currently defines the following levels of lead in dust as hazardous:

- 40 micrograms per square foot ($\mu\text{g}/\text{ft}^2$) and higher for floors, including carpeted floors
- 250 $\mu\text{g}/\text{ft}^2$ and higher for interior window sills

Lead in soil can be a hazard when children play in bare soil or when people bring soil into the house on their shoes. EPA currently defines the following levels of lead in soil as hazardous:

- 400 parts per million (ppm) and higher in play areas of bare soil
- 1,200 ppm (average) and higher in bare soil in the remainder of the yard

Remember, lead from paint chips—which you can see—and lead dust—which you may not be able to see—both can be hazards.

The only way to find out if paint, dust, or soil lead hazards exist is to test for them. The next page describes how to do this.

If your home has had lead abatement work done or if the housing is receiving federal assistance, once the work is completed, dust cleanup activities must be conducted until clearance testing indicates that lead dust levels are below the following levels:

- 40 micrograms per square foot ($\mu\text{g}/\text{ft}^2$) for floors, including carpeted floors
- 250 $\mu\text{g}/\text{ft}^2$ for interior windows sills
- 400 $\mu\text{g}/\text{ft}^2$ for window troughs

For help in locating certified lead abatement professionals in your area, call your state or local agency (see pages 14 and 15), or visit epa.gov/lead, or call 1-800-424-LEAD.

Reducing Lead Hazards

Disturbing lead-based paint or removing lead improperly can increase the hazard to your family by spreading even more lead dust around the house.

- * In addition to day-to-day cleaning and good nutrition, you can **temporarily** reduce lead-based paint hazards by taking actions, such as repairing damaged painted surfaces and planting grass to cover lead-contaminated soil. These actions are not permanent solutions and will need ongoing attention.

* You can minimize exposure to lead when renovating, repairing, or painting, by hiring an EPA- or state-certified renovator who is trained in the use of lead-safe work practices. If you are a do-it-yourselfer, learn how to use lead-safe work practices in your home.

* To remove lead hazards permanently, you should hire a certified lead abatement contractor. Abatement (or permanent hazard elimination) methods include removing, sealing, or enclosing lead-based paint with special materials. Just painting over the hazard with regular paint is not permanent control.

Always use a certified contractor who is trained to address lead hazards safely.

- * Hire a Lead-Safe Certified firm (see page 12) to perform renovation, repair, or painting (RRP) projects that disturb painted surfaces.
- * To correct lead hazards permanently, hire a certified lead abatement professional. This will ensure your contractor knows how to work safely and has the proper equipment to clean up thoroughly.

Certified contractors will employ qualified workers and follow strict safety rules as set by their state or by the federal government.

Checking Your Home for Lead

You can get your home tested for lead in several different ways:

- * A lead-based paint **inspection** tells you if your home has lead-based paint and where it is located. It won't tell you whether your home currently has lead hazards. A trained and certified testing professional, called a lead-based paint inspector, will conduct a paint inspection using methods, such as:
 - * Portable x-ray fluorescence (XRF) machine
 - * Lab tests of paint samples
 - * Sample paint that is deteriorated on doors, windows, floors, stairs, and walls
- * A **risk assessment** tells you if your home currently has any lead hazards from lead in paint, dust, or soil. It also tells you what actions to take to address any hazards. A trained and certified testing professional, called a risk assessor, will:
 - * Sample dust near painted surfaces and sampling bare soil in the yard
 - * Get lab tests of paint, dust, and soil samples

- * A combination inspection and risk assessment tells you if your home has any lead-based paint and if your home has any lead hazards, and where both are located.

- * Be sure to read the report provided to you after your inspection or risk assessment is completed, and ask questions about anything you do not understand.

Checking Your Home for Lead, continued

What You Can Do Now to Protect Your Family

In preparing for renovation, repair, or painting work in a pre-1978 home, Lead-Safe Certified renovators (see page 12) may:

- Take paint chip samples to determine if lead-based paint is present in the area planned for renovation and send them to an EPA-recognized lead lab for analysis. In housing receiving federal assistance, the person collecting these samples must be a certified lead-based paint inspector or risk assessor
- Use EPA-recognized tests kits to determine if lead-based paint is absent (but not in housing receiving federal assistance)
- Presume that lead-based paint is present and use lead-safe work practices

There are state and federal programs in place to ensure that testing is done safely, reliably, and effectively. Contact your state or local agency for more information, visit epa.gov/lead, or call **1-800-424-LEAD (5323)** for a list of contacts in your area.³

If you suspect that your house has lead-based paint hazards, you can take some immediate steps to reduce your family's risk:

- If you rent, notify your landlord of peeling or chipping paint.
- Keep painted surfaces clean and free of dust. Clean floors, window frames, window sills, and other surfaces weekly. Use a mop or sponge with warm water and a general all-purpose cleaner. (Remember: never mix ammonia and bleach products together because they can form a dangerous gas.)
- Carefully clean up paint chips immediately without creating dust.
- Thoroughly rinse sponges and mop heads often during cleaning of dirty or dusty areas, and again afterward.
- Wash your hands and your children's hands often, especially before they eat and before nap time and bed time.
- Keep play areas clean. Wash bottles, pacifiers, toys, and stuffed animals regularly.
- Keep children from chewing window sills or other painted surfaces, or eating soil.
- When renovating, repairing, or painting, hire only EPA- or state-approved Lead-Safe Certified renovation firms (see page 12).
- Clean or remove shoes before entering your home to avoid tracking in lead from soil.
- Make sure children eat nutritious, low-fat meals high in iron, and calcium, such as spinach and dairy products. Children with good diets absorb less lead.

BEDBUG ADDENDUM

This document is an Addendum and is part of the Rental/Lease Agreement, dated _____ between RHASNC and _____ "Resident" for the premises located at _____ Unit _____.

It is our goal to maintain the highest quality living environment for our Residents. RHASNC has inspected the unit prior to lease and knows of no bedbug infestation. Residents have an important role in preventing and controlling bed bugs. While the presence of bed bugs is not always related to personal cleanliness or housekeeping, good housekeeping will help control the problem by identifying bed bugs, minimizing an infestation and limiting its spread.

Resident represents that all furnishings and other property that will be moved into the unit are free of bedbugs.

Resident agrees to maintain the premises in a manner that prevents the occurrence of a bedbug infestation in the premises.

Resident agrees to uphold this responsibility in part by complying with the following list of responsibilities.

1. Resident shall practice good housekeeping, including the following:

- Resident shall **remove clutter**. Bed bugs like dark concealed places, such as in and around piles of clothing, shoes, stuffed animals, laundry, especially under the bed and in closets. Reducing clutter also makes it easier to carry out housekeeping.
- Resident shall **keep the unit clean**. Vacuum and dust regularly, particularly in the bedroom, being especially thorough around and under the bed, drapes, and furniture. Use a brush attachment to vacuum furniture legs, headboard, and in and around nightstand. While cleaning, look for signs of bed bugs, and report these immediately.
- Residents shall **avoid using secondhand furnishings that have not been thoroughly inspected for the presence of bedbugs**, especially bed frames, mattresses and box springs. If rental furnishings are used make sure that the furniture rental company has established procedures for inspection and identification of bed bugs and other pests. This process should include inspection of rental furniture inventory and trucks used to transport rental furniture. It should also include a pre-delivery and pre-pickup inspection by the furniture rental company of the premises to which the rental furniture is being delivered. Never accept an item that shows signs of bedbugs. Never take discarded items from the curbside.
- Resident shall **arrange furniture to minimize bed bug hiding places**. If possible, keep beds and upholstered furniture several inches away from the walls. Bed bugs can jump as far as 3 inches.
- Resident shall **check for hitch-hiking bedbugs**. If you stay in a hotel or another home, inspect your clothing, luggage, shoes, and belongings for signs of bed bugs before you enter your apartment. Check backpacks, shoes, and clothing after visits to friends, theaters, or after using public transportation. After guests visit, inspect beds, bedding and upholstered furniture.

2. Resident shall report any problems immediately. Specifically, Resident shall:
 - **Report any signs of bed bugs immediately.** Do not wait. Even a few bugs can rapidly multiply to create a major infestation that can spread from unit to unit.
 - **Report any maintenance needs immediately.** Bed bugs like cracks, crevices, holes, and other openings. Request that all openings be sealed to prevent the movement of bed bugs from room to room.
3. Resident shall cooperate with pest control efforts.
If your unit (or a neighbor's unit) is infested with bedbugs, a pest management professional may be called in to apply pesticides. The treatment is more likely to be effective if your unit is properly prepared. Resident complies with the recommendations from the pest management professional.

AUTHORIZATION FOR THE TRANSFER OF PERSONAL PROPERTY FROM APARTMENT UPON DEATH OR INCAPACITATION; WAIVER AND RELEASE OF LIABILITY

Resident Name:

Resident Address:

I understand that upon my death or if I become legally incapacitated while a resident at _____, that it is the Landlord's policy to require Power of Attorney Papers, Guardian Papers, and/or Probate Papers identifying my Personal Representative as the only person authorized to enter and remove personal property located in my apartment.

I have reviewed this policy with my family, heirs, and/or attorney and have decided that for the sole purpose of removing the contents of my apartment upon my death or incapacitation, my Landlord will allow the Appointee listed below access to my apartment to remove all the personal property without the necessity of any court order.

Name of Appointee: _____

Address of Appointee: _____

Telephone Number of Appointee: _____

I waive and release my Landlord, its owners, management agents, employees, or Landlord attorney [hereinafter collectively referred to as Landlord] from any and all claims that could be brought as a result of this transfer and I bind my estate through this waiver and release and order my estate to hold Landlord harmless for complying with my wishes. My intent is that my Personal Representative or Estate deal directly with the Appointee named above with regards to the disposition of the personal property. By transferring the personal property to the Appointee, neither my estate nor any heir has or is to have any claim resulting from the transfer against the Landlord. I direct the Appointee to accomplish this task within 30-days of my death, or give 30 days written vacate notice to my Landlord upon my incapacitation, and to pay the Landlord any rent due as of the date the keys are returned.

I understand that this Authorization may be revoked or changed during my residency and that until written notice of said change is received and acknowledged by the Landlord, this Authorization shall remain in full force and effect and any person acting pursuant to this release are hereby absolved and held harmless from any liability while acting in the absence of a court order.

I have been advised that I may seek the advice and guidance of legal counsel before signing this legal document that will be binding on my family, heirs, Personal Representative, and/or estate. I am further advised that Legal Aid may be available to review the document in the event I am unable to afford an attorney. Knowing this, I have voluntarily elected to execute this document on _____, 20_____. .
